

BMP Summary Sheet

Department Name:

Category of Municipal Operations: Winter Road Maintenance

BMP Title:	Road Salt Application
BMP Description:	<ul style="list-style-type: none">• Calibrate salt spreaders to ensure proper application.• Only apply the amount of salt needed to get the job done.• Follow the proper application guidelines.• Consider temperature when determining volume of salt to apply.• Cleanup ‘trackout’ after a storm event around the storage area.• Contain wash water from trucks used for salting and sanding in a holding tank for disposal or discharge into sanitary sewers.• Explore alternative compounds to spread on the roads that have the same effect but are better for surrounding area.• Store salt properly under cover to make sure salt is not leaving the storage area and draining to a storm drain or water body.• Place salt piles in areas not subject to flooding.• Use diversion berms to minimize water runoff from storage areas.
Measurable Goals:	<ul style="list-style-type: none">• Salt storage structures have been inspected and necessary repairs have been scheduled or completed.• All deicing materials have been stored under cover.• Application components have been tested, calibrated, and maintained at regular intervals.
